The 77th Annual Meeting of the Japan Radiology Society (JRS) in conjunction with the 74th Annual Meeting of the Japanese Society of Radiology Technology (JSRT), the 115th Scientific Meeting of the Japan Society of Medical Physics (JSMP), and the International Exhibitions of Medical Imaging (ITEM 2018), was held in the beautiful city of Yokohama in Japan from 12-15 April, 2018. The meeting saw participation of over 25,000 participants.

The meeting carried the theme ‘Innovative Science and Humanism in Radiology’ and was held to promote the innovative science for the future of radiology while still being supported by the hand of a humane person via clinical radiology. More importantly the goal was to cultivate and educate young radiologists who combine a creative brain with a rich humanity, as explained by Yutaka Imai, President of the 77th Annual Meeting of the Japan Radiological Society, Chairman and Professor at the Department of Radiology, Tokai University School of Medicine.

COR’s President, Dr Amir Fuad Hussain was given a special invitation to attend the JRS Meeting as well as to speak on following topics, “Scope, Limitations & Challenges of a National Radiology Society in Malaysia” & “The Future of Radiology in Malaysia,” at the 3rd Asia Radiology Summit.

Also attending the JRS Meeting was COR’s very own Prof Norlisa who was also given a special invitation to attend the event and speak on ‘Diffusion Imaging in Clinical Practice’ at the AOSR-JRS Conjoint Session Recent Topics of Diffusion Weighted Imaging in Neuroimaging.

Invited guests were treated to a sumptuous President’s Dinner at the Four Seasons that also featured a local dance troupe and choir.
