Rethinking Breast Cancer Screening: Abbreviated MRI

Tuesday, June 16th 2020
19:00-20:00 Malaysia Time

Register now

Prof. Christiane Kuhl,
University Clinic RWTH,
Aachen, Germany

Professor Christiane Kuhl is director of the Department of Diagnostic and Interventional Radiology at RWTH Aachen University Hospital in Germany. She is a renowned expert in MR
imaging and a pioneer of breast MRI. She inaugurated the concept of abbreviated MRI by her landmark study in JCO 2014, and has recently published the ECOG-ACRIN study on the use of abbreviated breast MRI in women with dense breasts in JAMA as lead author. She also received the 2020 EuroMinnies award as Most Influential Radiology Researcher.

**Key Learnings**

> Understand the limitations of mammographic screening
> Learn about sensitivity of alternative screening methods
> Understand the concept of abbreviated MRI
> Gain an overview of key study results in breast MRI

**Not a good time?**

Don't worry - we're still here for you. Radiology Academy webinar series has made some of our videos available online for you to listen and learn at your earliest convenience.
