Welcome!

In the framework of the collaboration between the Asian Oceanic Society of Radiology (AOSR) and the European Society of Radiology (ESR) we have the pleasure of providing you with some interesting information about the ESR and its annual congress, the European Congress of Radiology (ECR).

The slogan of **ECR 2018** is **Diverse & United**, celebrating international diversity in our profession. Our **ECR Online** platform allows colleagues from all over the globe to watch 3,000 lectures completely **free of charge**, as we believe that state-of-the-art knowledge should be made available to everyone.

In order to encourage radiologists, radiographers and physicists from abroad to join our society, **ESR corresponding membership** is free of charge! It offers many benefits as you can read below.

We look forward to welcoming many colleagues from Asia and Oceania to take part in our joint activities!

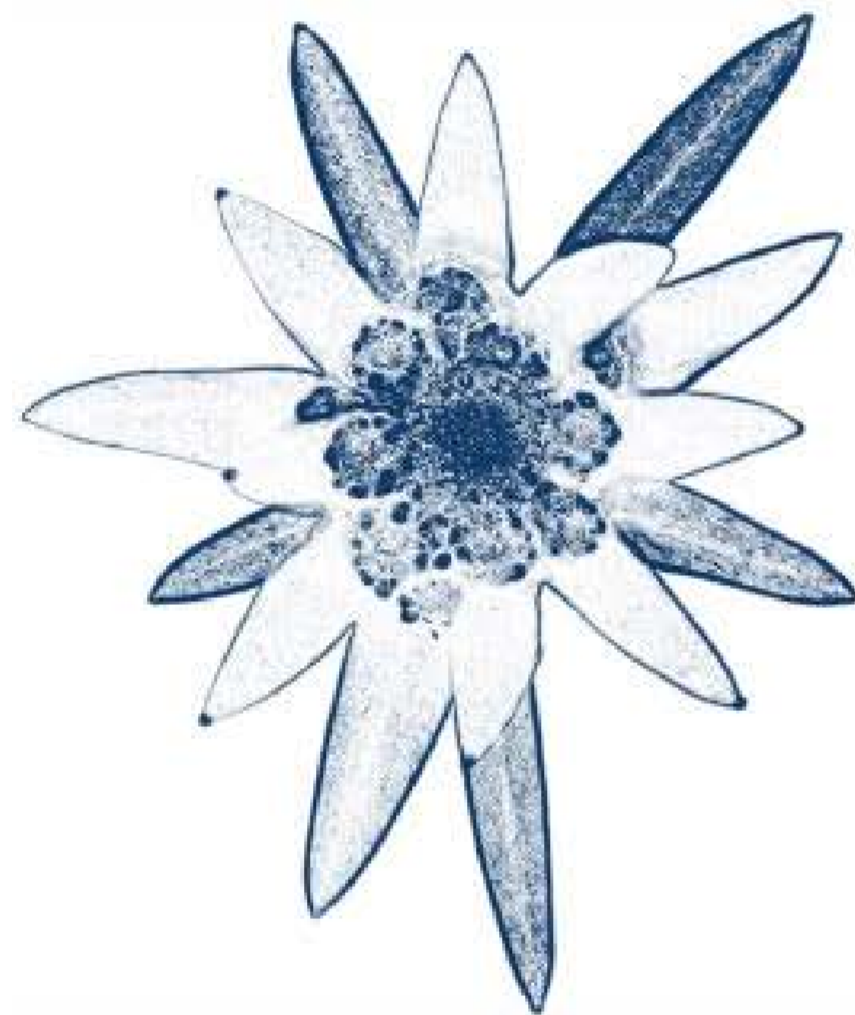

Prof. Yi-Hong Chou, AOSR President
Prof. Bernd Hamm, ESR President, Chair of the ECR 2018 Programme Planning Committee

ESR corresponding membership is free of charge

Become an ESR corresponding member for free - see all benefits [here](#). In order to benefit from reduced ECR 2018 fees, your ESR membership must be active before August 31, 2017.

[GET BENEFITS](#)

ECR Online - Free of charge, and better than ever

Watch more than 3,000 lectures from ECR 2017 completely free of charge! With a huge range of topics, there is something to suit every interest and every training level.

[ECR ONLINE](#)

Our member benefits

- Free electronic access to [European Radiology](#)
- The right to submit to our case database [EURORAD](#)
- Covering of article processing charges in our open access journals ([Insights into Imaging](#) and [European Radiology Experimental](#))
- Exclusive option to participate in the [European Diploma in Radiology \(EDiR\)](#) and all activities of the [European School of Radiology \(ESOR\)](#).
- Free access to the ESR's eLearning platform [Education on Demand](#)

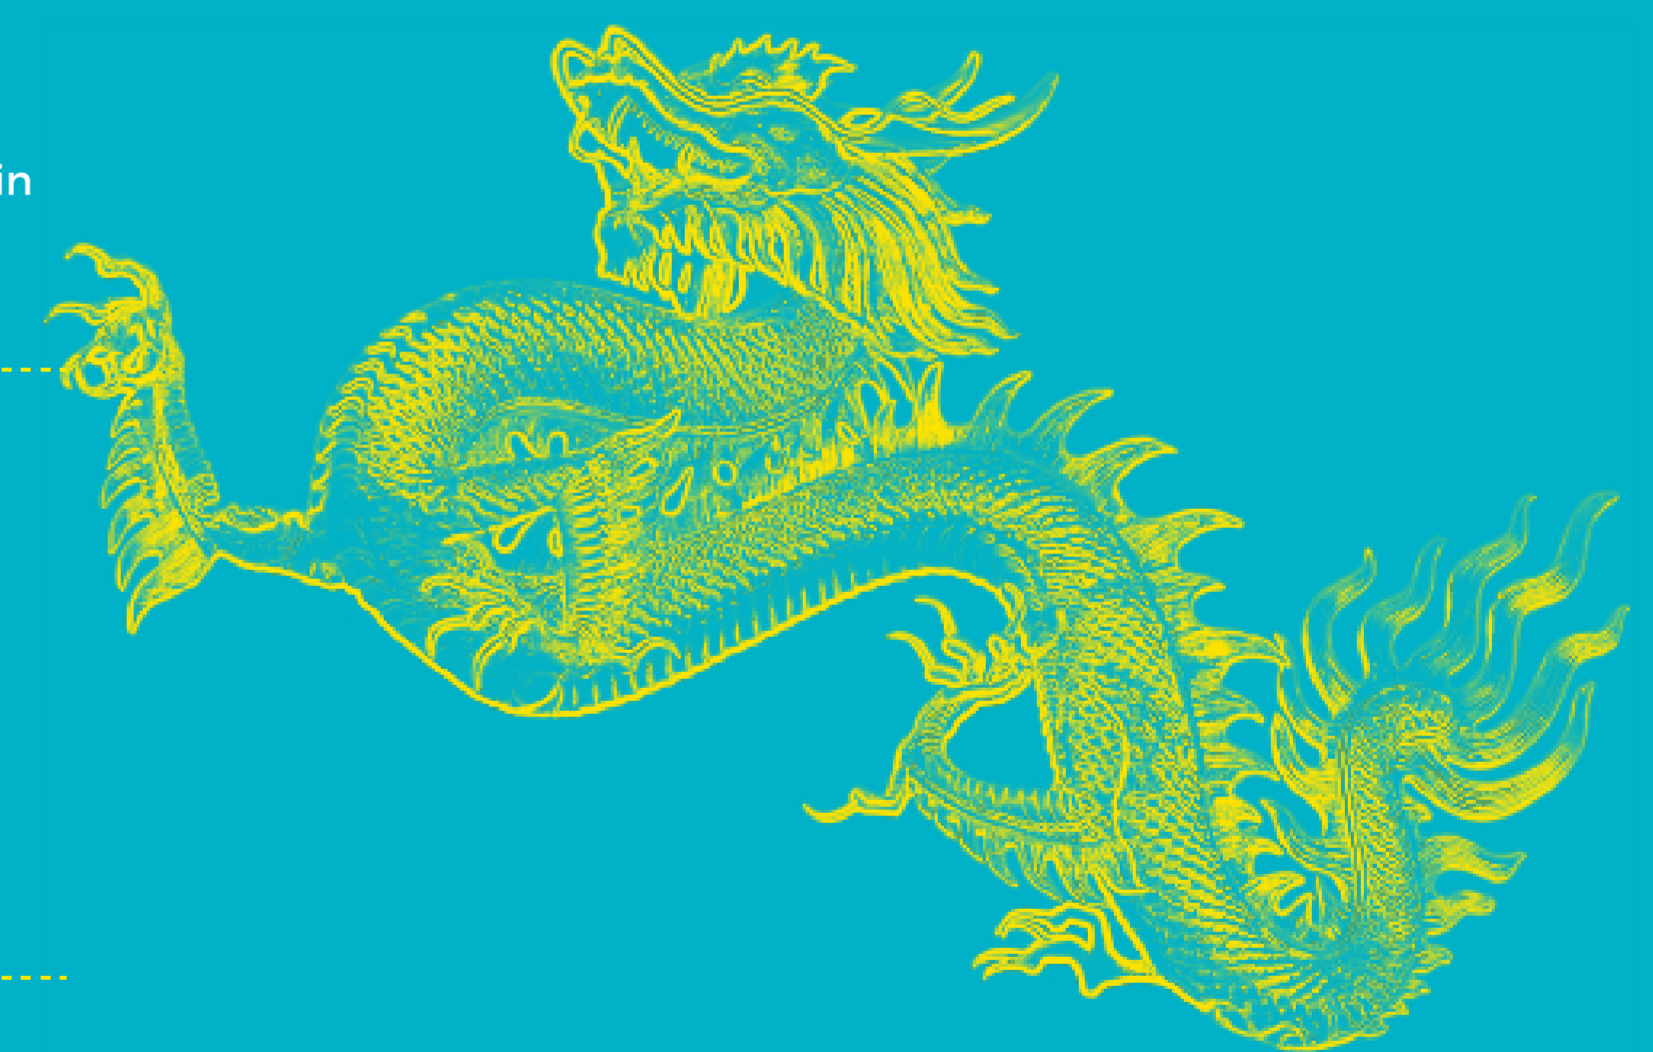

ECR 2018 - Diverse & United

The next European Congress of Radiology (ECR) will take place February 28 - March 4, 2018 in Vienna, Austria. We look forward to seeing you there!

Mark your calendar

Abstract submission starts July 3, 2017. See the ECR 2018 timeline [here](#).

Message from the ESR President

"Radiology is such a diverse specialty, covering a huge range of medical and scientific topics, from more and more refined diagnostic options to image-guided minimal invasive treatment options. Our congress is exactly the same, with something to offer for everyone, from radiologists, radiographers and medical physicists to residents and students. Just like a mosaic, it is the connection of all the different pieces that creates the big picture. Despite all the many different facets, professions and subspecialties, all of us involved in the world of medical imaging should see ourselves as a community and join forces to strengthen our specialty in the best interest of our patients. The essence of the ECR is that sharing high-quality scientific and educational content goes hand in hand with initiating and deepening professional contacts, networking and making new friends. At ECR 2018 we will be celebrating this fact, and showing that we are both diverse and united."

Prof. Bernd Hamm, ESR President
