

## NEUROIMAGING IN EPILEPSY

In conjunction with the College of Radiology Annual General Meeting 2022, the Neuroradiology, Head & Neck Special Interest Group (SIG) is honoured to organise a half-day seminar on "Neuroimaging in Epilepsy".

For the last few years, Neuroradiology SIG has organised and participated in seminars and conferences which have covered various topics such as infarcts, CNS tumours and demyelination to name a few.

However, we realised that Epilepsy has not been under the same spot light as the other topics.

Recognising that Epilepsy is part of the bread-and-butter work of Neuroimaging and commonly reported even by General Radiologist, we have dedicated this half-day seminar solely on this.

This is a multidisciplinary seminar where we will listen to the Neurologist, Neurosurgeon, Paediatric and Adult Neuroradiologists share their knowledge and latest update with us.

Come join us!

**DATE** : 11 JUNE 2022  
**DAY** : SATURDAY  
**TIME** : 9.00AM TO 1.00PM  
**VENUE** : KRISTAL BALLROOM 1  
HILTON HOTEL  
PETALING JAYA
