

SIG BREAST IMAGING WEBINAR

an update by

Dr Vijayalakshmi S.Krishnapillai, SIG Breast Imaging Webinar Organising Chairperson

The SIG Breast Imaging Webinar was successfully held on 6 February 2021 with sponsorship by Integrated Medical System Sdn. Bhd and had 214 participants. Dr. Shantini Arasaratnam delivered the opening remark, Dr. Vijayalakshmi Krisnapillai made the introduction, and Dr. Shamsiah Abdul Hamid moderated.

There were 9 lecture topics:

- Ultrasound Elastography in Breast Imaging - Dr Rizuana Iqbal Hussain
- Digital Breast Tomosynthesis - Dr. Shrini Devi
- Overview-Contrast Enhanced Mammography Initial Centre Malaysian Experience - Dr. Shantini A Arasaratnam
- Imaging Post Oncoplastic and Reconstruction Surgery for Breast Cancer - Dr. Suraya Baharruddin
- Imaging of Altered Breast due to Cosmetic Augmentation & Post Treatment Reduction - Datin Dr. Premila Kanagasabai
- Industrial Partner Talk - Integrated Medical System Sdn.Bhd.
- Role of MRI in Breast Imaging - Professor Dr. Kartini Rahmat
- Automated Volumetric Ultrasound Sharing of Hospital USM Experience - Assoc Prof Dr. Juhara Haron
- Breast Imaging in Pregnant and Lactating Patients Imaging modalities and Pregnancy-associated cancers - Nazimah Abdul Mumin

It is hoped that this Breast Imaging Webinar was insightful on maximizing early detection of breast cancer. The sad truth is that breast cancer knows no boundaries, only early detection saves lives. There is a great emphasis on early detection, with an exponential increase in both screening and diagnostic mammography.
